

THURSDAY EVENING, AUG. 2, 1894.

AT A meeting of the democrats of the Natural Bridge district of Rockbridge next day, and Mr. Wideman then left county, General Fitz. Lee offered a resolution, which was adopted, pledging "firm allegiance and support to the distinguished democratic President in not defined to the Secretary as fully as his effort to maintain the pledges made to the democratic party." The pledges contained in the Chicago platform were Wideman said if Secretary Gresham to the democratic party." The pledges in favor of freer raw material, and complied with their requests, which he against favors to trusts. And yet a could do without any delay, the comhigh tariff on sugar, which would be a great favor to the Northern sugar trust, Mr. Cleveland says he could stand, but ject of their mission must remain a sethat a reduction in the tariff on Virginin coal from 75 to 40 cents a ton is not enough to suit his fancy. He would have free, not freer coal, though that would favor a Canadian coal trust.

THE NEGROES in New York have organized an association to prevent the lynching of negroes in the South. As negroes are lynched in the West and association should be confined to the latter section, is by no means as apparent as it might be. But, leaving that point out of view, nothing would conduce more to the achievement of the association's object than successful efforts to prevent the commission of the crime for which negroes are lynched-When negro men shall cease outraging, or attempting to outrage, white women, negro lynching will cease in the South ton Hoge will be the republican nomi--but not before.

TWENTY-SIX killed and sixty-one injured have so far been reported as the result of the late railroad strike. That is a heavy load to carry. No wonder Mr. Debs, who told the poor simpletons who obeyed his orders to save their money and buy guns, sinks under it, and now says he never ordered the strike and will never have any thing to do with another one. To be held responsible for one man's death is pretty bad, but to be haunted by twenty-six dead men and be the object of reproach of sixty-one mutilated living ones, is enough to run a sane man crazy, let alone one who has taken the gold cure.

THE RECENT republican congressional convention of the fourth district declared for the free and unlimited coinage of silver at the ratio of sixteen to one, and that such coin shall be legal tender for all debts, and against democrats and populists in some of the | Springs, Va. Northwestern States. But the republicaus of Virginia, like those of all the other States, agree with Senator Sherman, that anything is justifiable in law and morals that will beat down the democratic party-even populistism.

AMONG THE proposed amendments to the constitution of the State of New York is one providing that "no inmate of a prison shall be whipped, or made to suffer bodily pain by any manner of torture, or be deprived of necessary food or drink, or be confined in a dungeon." Such is the prevalence of "humanitarianism" now that it would not be wonderful if it should also be provided that convicts shall not be compelled to do any kind of work, and shall be fed on the delicacies of the season. And yet under the "humanized" system, crime is increasing at a fearful rate.

A Virginia Congressman in talking to-day about officeseekers, said the fault lay with the President. He said if the President would come out flatfooted and announce that republican officeholders were good enough for him and that he would not appoint nor permit to be appointed any of the democrats who had labored for his election, the latter would accept the situation and seek employment at home, instead of in Washington; but that as he will not do that, they are still lured here by hopes

A bill to further restrict immigration to the United States, drawn at the Treasury Department and approved by the Secretary of the Treasury and the Secretary of State, was presented in the Senate to-day by Mr. Hill, chairman of the committee on immigration. Its particular intention is to keep anarchists from landing in America, and it contains a broad and strong clause to that effect.

The Senate conferrees are to day very sanguine of a speedy settlement of the tariff snarl. The only disagreement of importance now is the sugar schedule, and that appears to be in a fair way of settlement, by a change in the text of the schedule which will, it is asserted, give the House an oppor-tunity to claim a victory, but which will, in reality, retain the differential duty on refined sugar. Some Senators look for an agreement on this basis. When the committee adjourned to-day one of its members told the GAZETTE's correspondent the situation was precisely as it was yesterday. Messrs. Tracey and Catchings, of the House, say a bill will be passed, as they are sure the Senate will give way, as the House can not do so. An influ low the Senate bill to pass.
